<h3>How Much is Your Space Heater Costing You?</h3> <p>It is just a little space heater. How much harm could it do? Well, do not be fooled by these innocent looking electrical appliances that most of us keep tucked away for this time of year. That “little” heater can pack a surprising punch when it comes to your electrical bill.</p> <p>A standard space heater can use upwards of approximately 18 cents per hour. While that does not seem like a large amount initially, it can add up quickly, as much as \$40 in a month. Plus, if you are operating more than one space heater, the increase on your bill can be more substantial.</p> <p>If you use a space heater, make sure you are aware of how many hours it is running so that you can avoid “sticker shock” on your winter electric bills. Visit sawnee.coop for additional information and more tips.</p> <p>“At Sawnee EMC, We’re More Than Electricity... General Terms and Conditions

Bills are due upon receipt and must be paid on or before the due date on the front of the bill to avoid a late fee. A late fee of the greater of \$15.00 or 1.5% per residential account or the greater of \$30.00 or 1.5% per commercial account will be charged and the account will be subject to disconnection. In addition, balances in arrears 30 days or more will be assessed a monthly interest charge of 1.5%. If your past due balance is not paid by the date indicated, additional charges will apply, and your electric service will be subject to immediate disconnection.
